## **CITY OF AZUSA WEEKLY CITY MANAGER BRIEFING REGARDING COVID-19**

LA County Public Health Department confirms the City of Azusa has 13 confirmed cases of Covid-19 as of the April 5<sup>th</sup> report.

There are NEW Guidelines from LA County's Department of Public Health.

Emerging evidence suggests that there may be a significant number of people infected with COVID-19 who lack symptoms and, yet, are capable of spreading the virus to others.

New guidance from the Centers for Disease Control and Prevention (CDC) suggests that we need to think about using universal precautions all the time – assuming that each of us can infect others even when we aren't sick. Along with physical distancing, frequent handwashing, and remaining home when ill, the CDC and Public Health are recommending that the general public wear non-medical face coverings when interacting with others while obtaining essential supplies and services. [Please read the order here.](#)

Please sign up for Emergency Alerts via text message or e-mail on our website homepage or at the alert center. Please find updated information on our Covid-19 resource page.

For updates and information about city services and recent actions, please visit our city's website at [AZUSACA.GOV/CORONAVIRUS-COVID-19](http://AZUSACA.GOV/CORONAVIRUS-COVID-19). In addition to our city website, we will be pushing out information across several city departments and social media platforms.
